Amerzone

How to Play:

The mouse is used for everything:

- Click the left mouse button for movement and actions. Click the right button to access the inventory.
- The "Escape" key will take you to the main menu.
- Hitting the "~" key (to the left of the return key) will stop the animations.

The Inventory:

To select an object from the inventory: click the left mouse button to select the object, place it on the scene that is situated to the left of your screen and click again to resume playing.

Note: Remember to put the objects back in the inventory once you have finished using them.

Useful tips:

- To use the written documents, place your cursor at the bottom right of the screen to turn the pages.
- To exit the document, place your cursor at the bottom left of the screen.

Save Game:

- During the game, press the "Escape" key to access the main menu.

Click on "save" and you'll enter a room with empty spaces on the walls.

Click on one of these spaces to save. Once saving is complete, you will automatically re-enter the game.

- To overwrite a saved game:

Click on an old saved game which you don't want to keep.

- You are in the saving room but you don't want to save anymore: Click on the ceiling to resume playing.
